

# NOTTINGHAM COMMUNITY NEWSLETTER

Volume 8, Issue 7

January/February 2007

## From the Town Office

*Submitted by Charlie Brown*

The dates to sign up for elected office are January 24, 2007 through February 2, 2007. This must be done at the Town Clerk's Office. A list of open positions will be posted.

School District Deliberative Session: February 3, 2007 at 9 a.m. at the Nottingham Elementary School. Snow date to be announced

Town Budget Public Hearing: February 8, 2007, 7 p.m. at the Community Center. Snow date is February 15 (last day to hold meeting is February 16, 2007)

Election Day will be on March 13. Voting for town and school offices and Town and School Warrants will take place at the Community Center.

Town Meeting – Saturday, March 17

Reminder: The updated Recycling Policy has been in place since September 5, 2006. Thank you to all for your understanding and assistance in restarting this effort. As of January 1, 2007, the transition period has ended and compliance will be enforced on a much stricter basis. This will be an ongoing effort as we refine our recycling processes.

## Dog Registration Reminder

*Submitted by Sandra Weston*

All dog licenses must be renewed by April 30 annually. Failure to do so will result in late fees of \$1/month beginning June 1, plus a \$25 forfeiture fee and a \$5 administrative fee.

License fees are \$10 for a male or female dog or \$7.50 for a spayed or neutered dog and puppies 3-7 months old. For dog owners 65 or older, the fee is \$3 for the first dog.

Licenses can be renewed by mail. Just send your check made payable to the Town of Nottingham, along with a stamped, self-addressed return envelope to the Town Clerk, P O Box 114, Nottingham, NH 03290.

## Public Notice

The following Town of Nottingham positions are open for sign-up for the March 13, 2007 town elections:

Selectman	1 for 3 years
Trustee of the Trust Funds	1 for 3 years
Planning Board Member	2 for 3 years
Library Trustee	1 for 3 years
Zoning Board Member	1 for 3 years
Budget Committee Member	3 for 3 years
Cemetery Trustee	1 for 3 years

RSA 669:19 and 652:2 establish the sign-up period as the open hours of the Town Clerk between January 24 and February 2, 2007. The Town Clerk's office will also be open on February 2, 2007 between 3pm-5pm.

Respectfully submitted,

*Sandra W. Weston, Town Clerk*

## Communications from the School Board

*Submitted by the Nottingham School Board*

On January 8, the Nottingham School Board ratified the proposed teachers' contract. Highlights of this five-year (2005-2010) agreement include:

- 0% schedule increase, step only for years one and two; 2.5% salary schedule increase plus step year three; 2.7% salary schedule increase plus step year four; 3% salary schedule increase plus step increase for year five.
- Stipend for extra curricular activities \$850 for years three through five.
- A one time compensation of \$900 per year for those teachers who did not receive a step increase during 2005-2006 or 2006-07.
- Longevity discontinued for anyone hired July 1, 2007 or thereafter.
- Changes in health care include reductions in the school district contribution for single and two-person policies over the last three years of the contract.

## Fire & Rescue News

*Submitted by Heidi Carlson*

Happy New Year! We closed out 2006 with a total of 529 calls for service, up from 2005 by 14. One of our largest projects was continued work on the new station, which will be included as a warrant article at the 2007 Town Meeting. The Building Committee, and Board of Selectmen, along with department representation and other town officials have worked diligently the past two years on this project and are hopeful that it will be successful at Town Meeting.

We encourage you to review the proposal, and to attend the public budget hearing on February 8, the bond hearing on February 20 and Town Meeting on March 17 to get more information and hear the discussion. The Building Committee also meets regularly at the Town Offices, generally on Friday afternoons.

The Department would like to thank Jay Starr for two years of service as the Fire Chief. We would like to announce Jaye Vilchock as the Department's new Chief as of January 7. We are all looking toward a productive and busy year handling public safety issues and our many administrative tasks.

You can get a seasonal permit renewed Monday through Saturday from 8 a.m. to 4 p.m. so long as your outdoor pit has been inspected since January 1, 2006. The forestry statute changed and has increased requirements and criteria for a seasonal outdoor site, including its size. A full list of requirements is available on the town's website, and printed copies are at the station. Call John or Dan at 679-5666 for more information. Please also be reminded that even though it is winter, you cannot burn without a written permit unless the ground is fully covered with snow.

Our annual holiday tree and wreath sale was successful, and we thank everyone for their gracious support of this fundraiser, and of all our community events and activities.

## Conservation Commission News

*Submitted by Susan Mooney*

The Conservation Commission (NCC) and the Board of Selectmen have discussed ways to increase the amount of money in the Town's Conservation Fund. For the last three years, 50% of the Land Use Change Tax up to an annual maximum contribution of \$100,000 has been the way in which the community has been able to help landowners put a portion of their property into conservation easement.

A gift to Nottingham's Conservation Fund is a way in which anyone can help protect natural resources, provide wildlife habitat and conserve open space for our community. Please contact the Conservation Commission for more information or pick up a handout at the Community Center or the Blaisdell Memorial Library. Information is also available on the town's web site: [www.nottingham-nh.gov](http://www.nottingham-nh.gov).

Another way to increase the Conservation Fund is by increasing the amount of the Land Use Change Tax contribution into the Fund. The NCC intends to sponsor a warrant article for Town Meeting that would increase the tax contribution to 100% with the cap restriction removed. At this time there are two proposed easements in Nottingham that are valued at several hundred thousand dollars each, and there is only about \$60,000 left in the fund at the end of 2006. Please support the rural character of Nottingham and resource protection with your votes at Town Meeting.

The NCC has been actively involved in subdivision projects in town. We have requested that the NCC be notified of all subdivision projects whether or not wetlands will be impacted.

The NCC meets every second Monday of the month at 7 p.m. in the Town Office building, unless otherwise posted. The Nottingham Natural Resource Committee meets every third Tuesday of the month at 6:30 p.m. if there is business to conduct.

A contribution to  
Nottingham's Conservation Fund  
will help to

Protect Natural Resources  
Provide Wildlife Habitat  
and Conserve Open Space  
for our Community.

Please contact the Conservation Commission for more information. Handouts are available at the Community Center and the Blaisdell Library.

## *School Board, continued from page 1*

Additional information will be presented at the February 3 School District Deliberative Session and in a future school board flyer.

As we approach the deliberative session and elections, the board thought it appropriate to provide some historical information regarding two recent topics of discussion: high school options and student enrollment at Nottingham School.

Although we do not have a high school in town, the school district is still responsible for the education of our high school students. Presently the majority of students (170) attend Dover High School (DHS), with approximately 46 attending Coe Brown Northwood Academy (CBNA); a few students attend other area public high schools.

Currently the school district has agreements with two high schools, DHS and CBNA. We have a 10-year (July 1, 2006–June 30, 2016) no-cap contract with DHS. In addition, we have a three-year (September 2004–June 2007) Tuition Agreement with CBNA. According to the terms of this agreement, CBNA will take up to 20 Nottingham ninth grade students who meet the application requirements. The parents of students who attend CBNA are responsible for the tuition difference between DHS and CBNA.

The following provides some background information regarding the current tuition policy. In March 1989, the voters of Nottingham approved an article that recommended the School District “limit its liability for high school tuition not to exceed the tuition of its high school of record (Dover High School).” Prior to this, Nottingham paid the full tuition rate regardless of the public high school a student attended. At that time students attended a variety of public high schools including Dover, Epping, Raymond, Oyster River and Winnacunnet, as well as CBNA and Pinkerton Academy (both classified as “public academies”). As a result of passage of this article, parents were billed for any difference in tuition rate that exceeded the Dover rate.

In 2005, the voters approved a warrant article that recommended that the “Nottingham School Board set policy on the payment of tuition to any public high school which is the responsibility of the Nottingham School District not to exceed the DHS tuition rate.”

This past December, the Nottingham School Board received a letter from the CBNA Board of Trustees inquiring as to our interest in “holding discussions that might result in a mutually beneficial contract that would include all three towns in SAU #44.” The superintendent,

on behalf of the school board, has contacted CBNA to set up a meeting with the CBNA Board of Trustees. The board will keep the community informed as we learn more of CBNA’s intent and gather data related to this important issue.

The Board would like to thank those who attended the December 20 board meeting as well as those members of the community who have e-mailed regarding this issue. The dialogue during the board meeting was informative and provided the board with information from a variety of stakeholders. It is clear that the community values and is interested in maintaining our current arrangement whereby high school students have a choice as to which high school to attend.

To assist the board with both short- and long-term planning due to increasing enrollment, three items are included in the proposed 2007-08 budget: an Enrollment Projection Assessment, an Architectural Feasibility Assessment, and a warrant article exclusively for the purpose of funding an architectural design for a future building project should this be the recommendation of the two assessments.

Nottingham School opened its doors for the 1995 school year with a student population of 480 (as of October 1); our current student population as of October 1, 2006 was 514. While there has been some variability in student enrollment, there has been a steady increase of at least nine students per year since 2002. One of many challenges to increasing student enrollment is that the increase is not equally dispersed across the grades. This year increased student enrollment necessitated an additional kindergarten section: The school now has two morning and two afternoon kindergarten sections along with three classes each of grades 1 through 7, with two homerooms of 8<sup>th</sup> grade. Due to the size of the current 7<sup>th</sup> grade, next year there will be three homerooms each of 6<sup>th</sup>, 7<sup>th</sup>, and 8<sup>th</sup> grade.

Increased student enrollment impacts not only class size but also support services (i.e.: guidance, nurse, special education), the lunch schedule, transportation and the facility itself (i.e.: septic, water use). So that Nottingham School can continue to meet minimum Department of Education standards, additional guidance and health (nurse) staff are included in the proposed 2007-2008 budget. The board has increased both of these positions by 20% (the equivalent of one day).

On Saturday, February 3, the Deliberative Session will begin at 9 a.m. at Nottingham School. The Nottingham School Board will present the proposed 2007-2008 School Budget. Elections and voting on the budget and other warrant articles will take place on Tuesday, March 13, 8 a.m. to 7 p.m. at the Community Center.

## Reading Road Trip U.S.A.

*Submitted by Rhoda Capron*

In preparation for the library's summer reading program, Reading Road Trip U.S.A., we are trying to get postcards from as many places in the continental United States as possible. We are asking people to either pick up or send us a postcard as they travel around the country. We are especially interested in postcards with the name of the place pictured on the front of the card. It will be fun to see how many states we can get postcards from. If you wish to mail the card, send it to Blaisdell Memorial Library, PO Box 115, Nottingham, NH 03290. Thank you for your help.

## Molly Ockett, Last of the Pequawkets

*Submitted by Rhoda Capron*

Presenter Carol Foord will be appearing as Molly Ockett at the Blaisdell Memorial Library on Sunday, February 25 at 2 p.m. A member of the Pequawket tribe that once lived along the Saco River, Molly Ockett was five when war broke between the French and English. As a young woman she was in Odanak when Captain Robert Rogers attacked her village and was one of the few who escaped. Knowledgeable in healing plants, she was revered by many as a doctor and feared by others as a witch. Come hear more details of this interesting woman's life. This program is free and sponsored by the Friends of the Library. Snow date is March 4 at 2 p.m. Call 679-8484 for more information.

## Pawtuckaway Lake Improvement Association

*Submitted by Tom Duffy*

PLIA members will be meeting Wednesday, February 28, at the Town Hall in Nottingham for the planning of the 2007 Annual Meeting for June and other activities for the year, including Pawtuckaway Kids events. New members welcome. Details will be posted on the web site: [www.pawtuckawaylake.com](http://www.pawtuckawaylake.com). Questions? Call Tom Duffy at 303-3039 or email at [tduffy9@comcast.net](mailto:tduffy9@comcast.net).

## Nottingham Volunteer Program Presents After School Enrichment Program

*Submitted by Chris Quinn*

We are in search of people\* from our community who have a skill, hobby, or talent they would like to share with our students as part of an after school program. We ask that you donate your time, maybe a single two-hour session or even six to eight sessions depending on your area of expertise.

You can choose the grade range and number of students you have in your class, as well as the date and times you meet. Students will pay a fee to take the class but it will be nominal and used to cover just the expenses associated with the course.

We hope to attract all sorts of things from crafts, sports, foreign language, sign language, exercise, sewing or quilting, dance, storytelling, card making, make up application and personal care, chess, games, and more. Anything that might open the eyes of students and widen their horizons is welcome!!

If you are interested in sponsoring a class, please email me and I will send you a sheet to gather some information. If you have questions, I can be contacted at [cquinn9966@aol.com](mailto:cquinn9966@aol.com) or 679-9930.

## Tom Wessels to speak at Bear-Paw Meeting

*Submitted By Daniel Kern*

Bear-Paw Regional Greenways invites members, friends, and the public to its 12<sup>th</sup> year Annual Meeting on February 10 at Coe-Brown Northwood Academy on Route 4 in Northwood. Registration begins at 9 a.m. Bear-Paw will celebrate the addition of five conservation easements and almost 220 acres to its list of lands protected! Bear-Paw now holds 16 easements protecting 1,135 acres and has assisted on other projects protecting another 1,233 acres.

After a brief business meeting and the presentation of awards, Tom Wessels will discuss his latest book, "The Myth of Progress." His presentation offers a critical examination of the reigning notions of progress through the lens of complex systems science. Tom is a professor of Ecology and founding director of the Masters Degree Program in Conservation Biology in the Department of Environmental Studies at Antioch University New England in Keene, New Hampshire.

After the presentation and a lunch that will be provided, we will take a snowshoe trek or hike through a local conservation area. This will be a moderately strenuous walk. Snowshoes may be needed and proper dress is required. The Annual Meeting will also feature the raffle of many donated items. Bear-Paw welcomes donations for this fundraising effort.

Pre-registration is strongly recommended so that Bear-Paw can plan appropriately. Please register at [info@Bear-Paw.org](mailto:info@Bear-Paw.org) or 463-9400 by February 6 to reserve your place. This event is open to the public and this year a \$15 donation is requested.

Bear-Paw Regional Greenways is a non-profit land trust led by resident volunteers who are concerned about the loss of natural areas throughout the organization's seven-town service area. For information about how to become a member, land protection options for landowners or volunteering with the land trust, contact Daniel Kern at Bear-Paw Regional Greenways, P.O. Box 19, Deerfield, NH 03037, 463-9400, [info@bear-paw.org](mailto:info@bear-paw.org), or visit [www.bear-paw.org](http://www.bear-paw.org).

## Luckiest Winner

*Submitted by Beverly Caldon*

The luckiest woman in Nottingham in November was Nora Holmes! Nora won the beautiful crocheted Americana blanket, which the Women's Club raffled this season. The rest of you'd better not pout, you'd better not cry about not winning, because there'll be another Nottingham Women's Club raffle advertised soon! The club was delighted with the number of tickets sold, since all proceeds went to the Scholarship Fund.

Women's Club members hunker in for January and February, but come March 19, 2007 at 1:30 they'll be meeting again at the Community Congregational Church. The March program will feature a silent auction. Prospective members are welcome to partake quietly.

## Recreation Department News

*Submitted by Janet Horvath, 679-3435*

The Recreation Department presents the Valentine's Dessert Potluck and Dance on Friday, February 9 at the Community Center. Bring your desserts at 6:30 p.m. Square dancing will start at 7 p.m. This event is free.

Parents of children in town sports programs: Please check for soccer and football uniforms as not all have been returned. NYA baseball uniforms can be dropped off at the Recreation Department if you can't reach anyone from NYA. Returning the uniforms helps keep the cost of all the programs reasonable in future years.

If you are interested in helping to plan Nottingham Day 2007, contact the Recreation office. Planning takes place throughout the year with monthly meetings. Become involved--help make this day an even greater success!

Thanks to everyone who volunteered in our programs in 2006. We could not have done it without all the coaches, camp staff, party helpers, the Nottingham Day committee, and general help in setting up and cleaning up for all of our events. We appreciate the support from all the other town departments as well. We look forward to serving the needs of the community in 2007!

## Coming to Town Meeting: The Climate Change Resolution

*Submitted by Denise Blaha, for the Carbon Coalition*

Among the many warrant articles Nottingham voters will consider at our March 17 town meeting is a resolution calling for federal and local action on climate change. The resolution has been brought forward by the Carbon Coalition (<http://www.carboncoalition.org>), a non-partisan alliance of citizens, scientists, businesses, students, communities and organizations co-chaired by Republican Ted Leach of Hancock, and Democrat Joseph Keefe of Manchester. The Carbon Coalition's resolution calls for the establishment of a national program requiring reductions of U.S. greenhouse gas emissions consistent with protecting the U.S. economy and it calls for the creation of a major national research initiative to foster rapid development of sustainable energy technologies.

At our local level, the resolution asks our Boards of Selectmen to consider appointing a voluntary energy committee to recommend local steps we can take to save energy (and money) and reduce emissions through more energy-efficient technologies. Approximately 170 municipalities throughout New Hampshire will consider this resolution at town meetings this spring.

There's a terrific precedent for grassroots initiatives like this resulting in federal action. Twenty years ago municipalities throughout New Hampshire had a similar resolution on the ballot regarding acid rain. There wasn't the awareness then about acid rain that exists now with climate change. Yet the resolution still passed overwhelmingly in 197 out of 199 municipalities. New Hampshire voters helped make acid rain a national issue and federal legislation was passed limiting sulfur dioxide emissions from electric utilities. The "cap and trade" market-based system that was developed reduced emissions substantially, without burdening utility customers. Since then, sulfur dioxide levels have fallen by a third and our New England forests are rebounding.

The climate change resolution has been endorsed by the New Hampshire Planners Association, the Cranmore Mountain Ski Resort, Loon Mountain Ski Resort, the American Snowmobile Association, the New Hampshire Council of Churches, and the Nottingham Board of Selectmen (as well as numerous other Boards of Selectmen throughout New Hampshire).

Left unchecked, greenhouse gas emissions from fossil fuel combustion will make our climate here in New Hampshire resemble that of North Carolina by the end of this century. We will lose our vibrant fall foliage, our winter ski season, our comfortably warm summers and much of our coastline. We will lose that which makes us distinctively New Hampshire. But it's not too late. With scientists virtually unanimous in their agreement that greenhouse gas emissions from fossil fuel combustion are causing our climate to change (a view reaffirmed by President Bush in the Gleneagles Communiqué in 2005), it's time for federal action on climate change. I hope you'll join me in supporting the climate change resolution at our March 17 town meeting. If you have any questions, please contact me at 868-3255.

## Mulligan Forest Update

*Submitted by Tom Howe and Chris Wells, Society for the Protection of New Hampshire Forests*

The Forest Society is on track to complete the Mulligan Forest conservation easement in 2007. Last fall's fundraising mail campaign has so far brought in more than 435 individual contributions to the project. Eighty-seven of these were from Nottingham residents—thank you! As the new year gets under way, the Forest Society will be working to secure additional major private gifts to get us over the financial finish line. Once private fundraising is completed, we will coordinate with the landowners, the Town of Nottingham and LCHIP to close the easement transaction, and, last but not least, hold a public celebration event. Look for further updates in future editions of this newsletter. In the meantime, Happy New Year!

## There was a Tavern in the Town...

*Submitted by the Nottingham Historical Society*

Before the Piscataqua Bridge and the First New Hampshire Turnpike (now Route 4) were opened (about 1800), traffic from Portsmouth north and westbound went around Great Bay and came up Ledge Farm Road into and through our town. Needless to say, at four or five miles an hour, it took awhile just to get as far as the Square. Drivers, oxen and horses alike needed food, drink and a place to lie down and rest. Taverns abounded.

The Butler Tavern, on the Square, was then known as the "Bird-in-Hand" and was a place for locals to gather and pick up on the news and a major stop-over for through traffic. From the "Nottingham - 250" newspaper we learn that on Sept. 13, 1794, "Col. Henry Butler is licensed to keep an open Tavern in the Town" attested by Thomas Bartlett, Town Clerk. And many other inns and taverns in and around the town did a brisk business. Nottingham boomed.
