Subject: Proposed watercross events

My name is Arthur Jenks, My property abutts the property that the proposed events would be held on. i have absolutely no issues with these events being held, they helped three of them last year and as far as I am concerned they were just fun family events. They gave family somewhere to go for the weekend to do something outside enjoy the weather and to be together. There were no issues of any sort of these events last year they all went off without a hitch of any kind.

I just want to be on record that I have absolutely no issues at all with these events being held. Then I think they are they family-friendly and events that should be encouraged.

Sincerely,
Arthur Jenks
