<b>EXECUTIVE SUMMARY</b>		
<p>The existing 8.075-acre parcel is located on Gile Rd, east of Stage Rd. The applicant proposes to subdivide into two lots, including one lot classified as a "back lot" per section 14.2.4 of the Nottingham Subdivision Regulations</p> <p><u>Proposed lot 10</u> 3.067 acres 250 ft. frontage Contains existing house and driveway State subdivision required</p> <p><u>Proposed lot 10A</u> Back lot 5.008 acres 57 ft. frontage (20 required) Note: Section 14.2.4 does not permit the "neck lot area" to be used for minimum lot size calculations. Please provide acreage for lot 10A that excludes the neck lot area. Note: Section 14.2.4 requires back lots to be deed restricted to preclude further subdivision. No such deed language or plan notes appear to have been provided.</p> <p>NOTE: Identified frontage of new lots (250' + 57') does not equal identified frontage of the parent lot (317'). Please confirm lot frontages (likely a typo 6 changed to 5).</p>

**STAFF TECHNICAL COMMENTS AND MEETING REVIEW HISTORY**

Subdivision Application

- Items of note:
  - The existing house is depicted within the 50' side setback. Per the property card, the house was constructed in 1972, predating the enactment of the current Nottingham Zoning Ordinance Regulations in 1980. It would therefore be a pre-existing non-conforming structure; the proposed subdivision does not alter this property line, therefore I would not interpret the structure as becoming more non-conforming.
- Elements in need of clarification, additional information, or provision before approval:

## TOWN OF NOTTINGHAM, NH - PLANNING BOARD

NOTTINGHAM TOWN OFFICE • 139 Stage Rd., P.O. Box 114 • Nottingham, NH 03290

Phone: (603) 994-3500

Phone: (603)679-9597

Fax: (603) 679-1013

- a. Section 14.2.4 does not permit the “neck lot area” to be used for minimum lot size calculations.
    - i. The applicant should provide acreage for lot 10A that excludes the neck lot area. I suggest simply continuing the rear property line of proposed lot 10 in a straight line for the purpose of determining the limits of the neck lot area to be excluded.
    - ii. Rough calculations (assuming a rectangle of 456’ X 342’ using the measurements on the plan) estimates roughly 3.5 acres, which would satisfy minimum lot size.
  - b. The applicant proposes an access easement across lot 10 for the purpose of accessing the back lot, and a note identifies the bounds of that easement and indicates that the easement shall be recorded upon the sale of lot 10A
    - i. I recommend that the language of the easement be provided for the board’s consideration and inclusion in the file. The board may consider whether third-party review of easement language is necessary.
    - ii. The board may consider whether the timing of recordation to coincide with the sale is appropriate, or whether another deadline is preferable.
    - iii. The language included on the plan appears sufficient to indicate an intent to convey an easement and as such would be legally enforceable; however, the board should consider whether to explicitly list recordation of easement language as a condition of approval so that it would appear in a Notice of Decision for ease of reference.
  - c. Section 14.2.4 of the subdivision regulations stipulates that back lots must be deed restricted to preclude further subdivision. I did not identify any such deed restriction included with the application materials or any note to that effect
    - i. I recommend that sample deed language be provided for the board’s consideration and inclusion in the file. The board may consider whether third-party review of easement language is necessary.
    - ii. A note should be added to the subdivision plan identifying lot 10A as unsubdividable. While this note would indicate an intent to preclude further subdivision and as such would be legally enforceable, I recommend listing recordation of this language as a condition of approval to ensure recordation and so that the condition appears in a Notice of Decision for ease of reference.
3. Notes changes, corrections, and additions:
- a. Frontage – the plan identifies a total frontage of 317’ on the parent parcel (which matches the town GIS), but appears to label the proposed frontages as 250’ and 57’, totaling only 307’. Please explain the discrepancy or correct the frontages to match.

### HEARING PROCEDURES

1. Convene hearing
2. Board, applicant and abutter comments on acceptance (determine completeness)
3. Consider and determine whether the application is a development of regional impact (**Vote Required**)
4. Presentation by applicant/board questions
5. Abutter testimony
6. Board discussion, comments, questions
7. Act on approval, conditions, denial or continue to a date certain
