

Some of the many things your local Conservation Commission does....

- We receive wetland applications from NH DES, to review to sometimes comment and sometimes approve.
- We review Scenic Road proposed "improvements" activities. Our Scenic Roads are listed in the Master Plan Update adopted 2012, Chapter 6, pages 4 & 5.
- We pay dues to several conservation entities including the NH Association of Conservation Commissions.
- Attend seminars, workshops and conventions.
- The Planning Board invites the Commission to participate in site walks for subdivisions and conversions to provide feedback to the Board re: potential impacts on natural resources.
- The Commission also annually monitors conservation easements for which the town of Nottingham is the easement holder for these parcels still in private ownership.
- The Trails Committee of the Commission is not regulated by the state. Members of the TC work with the Historical Society and the Parks and Recreation Dept , mostly developing and maintaining our public trail systems. The Trails Committee meets separately from the Commission meeting dates.
- The Lamprey River Advisory Committee is a branch of NH DES in which four seats from each area town in the watershed are available. Nottingham has only one rep at this time. Interested? Let us know!
- We pick up trash several times a year for the DES Adopt a Highway program.
- We host programs at the library such as "Turtles in NH" and put signs out for outreach for big amphibian migration events in the spring.
- Sample the quality of the North and Little Rivers during the summer for the VRAP - NH Volunteer River Assessment Program. with community volunteers. been doing this for over 10 years.
- No one member does all of these things, it's based on whatever is one's interest.

RSAs 36-A:1 thru 36-A:5 are available online at the NH Office of Planning and Development. Here's the link to the Publication:
